About Castler (www.castler.com)

Castler aims to make escrow transactions secure, convenient, and affordable by leveraging cutting-edge technology. Our solution involves eKYC, eAgreement signing, quick onboarding, instant facilitation of transactions, and real-time updates of transactions from digital escrow accounts. Clients can open multiple digital accounts and track the activity from a Smart Dashboard or integrate Castler's escrow API stacks. In the wake of an unprecedented rise in cyber frauds in India, our vision is to create a robust, security-focused transaction ecosystem for consumers and businesses to enable confidence in every transaction.

Castler processes 400 Crs of secured Escrow transactions every month and have onboarded 100+ Enterprise customers. We are integrated with 4 banks and 6 banks are in pipeline.

Castler raised USD 0.5 Mn in a pre-seed round last year and in process to close Seed round. Our investors include Venture catalysts, Lets Venture, 91Unicorns, Angel List, and prominent Angel Investors/Founders.
